

November 15, 2020

Dear Trail Family,

With COVID cases at an all-time high in Allegheny County (and Pennsylvania) it is hugely important that we stay vigilant with social distancing. As trail runners, we are fortunate that our "hobby" is an outdoor activity with a low transmission risk. That said, practicing safety measures is still a top priority.

Keeping a minimum distance of six feet between individuals remains a key component to slowing the spread of this highly infectious disease. Face coverings should be used in cases where distancing is not viable.

We will continue to monitor state and local guidelines.

Thank you for your ongoing cooperation!

See you on the trails!
