

## Member Communication, July 3, 2020

In support of Allegheny County COVID-19 guidelines, we are taking the following precautions to ensure the health and safety of our runners as well as our community at large:

- All group runs will comply with the 25-person limit, with the intention of keeping the headcount well below that number.
- The ability to split every group run into two groups is in place. (Group Run Leads are accountable for this)
- All runners will maintain the minimum 6-foot distance between each other (before, during and after runs).
- Participants are encouraged to use the "Going" or "Not Going" RSVP feature within the NPTR Public FacebookEvents. We realize some runners utilize our website calendar for group run information. In those cases, RSVP's are not viable.
- All runners will respect the established trail etiquette, yielding to hikers and moving off the trail to allow for 6-foot distancing.

**Note:** masks are now required in public spaces where distancing is not viable.
